PART VII.—TRADE OF BRITISH AND FOREIGN COUNTRIES.

NOTE—*The above parts will not necessarily be issued in the order indicated.*

EXPLANATORY NOTE.

The publication of Part VII of the Annual Report of the Department of Trade and Commerce for 1916 has been postponed for several months beyond the usual time of issue because of delays in receiving the information necessary for its compilation. Since the outbreak of the war a number of countries have suspended publication of trade statistics, and the issuing of reports by certain other countries has been greatly delayed. It was in order to obtain as many returns of such countries as possible that the printing of Part VII was postponed. Much advantage was secured by the delay, as the report now appears with the latest statistics from several countries which would not have been available had publication been at the usual time.

In the cases of countries from which no returns have been received since the last publication of this report, it was impossible to do otherwise than reprint the statistics given in the previous volume.

Inasmuch as the trade of the whole world has been under abnormal influences for the past three years, and as late statistics from a number of countries are not available, it has been thought best not to bring up-to-date the table on page X, but rather to retain in it the last statistics of a pre-war period. Any other course would have destroyed the value of the statement for purposes of comparison.

Trade Statistics Branch,
Department of Trade and Commerce,
Ottawa, September 1, 1917.

PART VII

TABLE OF CONTENTS

COINAGE, WEIGHTS AND MEASURES.

To assist in arriving at a comprehensive understanding of the value of foreign currencies, weights and measures (as expressed in foreign trade returns, tariffs, etc.), as compared with those of Canada, tables have been prepared as follows:—

As regards those of Canada, the law provides that the denominations of money in the currency of Canada shall be dollars, cents and mills, the cent being the one-hundreth part of a dollar, and the mill one-tenth part of a cent.

That—The currency of Canada shall be such that the British sovereign (the pound sterling), of legal weight and fineness, shall be equal to four dollars eighty-six cents and two-thirds of a cent.

In like manner the law provides as respects weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce (437½ grains) one hundred pounds a cental, and two thousand pounds a ton, and that 480 grains shall be an ounce troy.

As regards measures—That the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon containing ten standard pounds weight of distilled water weighed with the water and air at a temperature of 62 degrees Fahrenheit, with the barometer at thirty inches, that the quart shall be one-fourth part of the gallon, and the pint one-eighth part of the gallon, and that eight gallons shall be a bushel.

This gallon, commonly known as the “Imperial gallon”, contains 277·274 cubic inches, or 353·036 cylindrical inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

In many countries the Metric system of weights and measures has been adopted. A separate table of Canadian equivalents of these is given in order to avoid repetition, the word “Metric” being used in the general table in each case where the system is in vogue, as indicating a reference to that table.

METRIC WEIGHTS.

Denominations.	Grammes.	EQUIVALENTS.		Remarks.
		In pounds and decimal parts thereof, avoirdupois.	In grains, troy.	
Gramme.....	1	·0022046223	15·4323564	The gramme is the actual unit, and is the weight of one cubic centimetre of distilled water.
Decagramme.....	10	·022046223

*The Imports from Hong Kong come originally from, and the exports to that colony are further carried on to the United Kingdom, America, Australia, India, etc., and coast ports of China. In addition to the imports, to which the values given in the above table are confined, the South of China is supplied with goods im-ported from Singapore, Siam and other foreign places in native vessels.

CHINA.

Total Quantities and Values of the Principal Articles of Merchandise Imported for Consumption during the Years ended December 31, 1911 to 1915.
